

The CAPrice Initiative: A socio-technical solution to digital privacy

Ioannis Chrysakis and Konstantinos Kretsoulas

Every time you use an app or a web service have you ever thought of how your **personal data** have been used by third parties?

Have you ever read the associated **terms and conditions**?

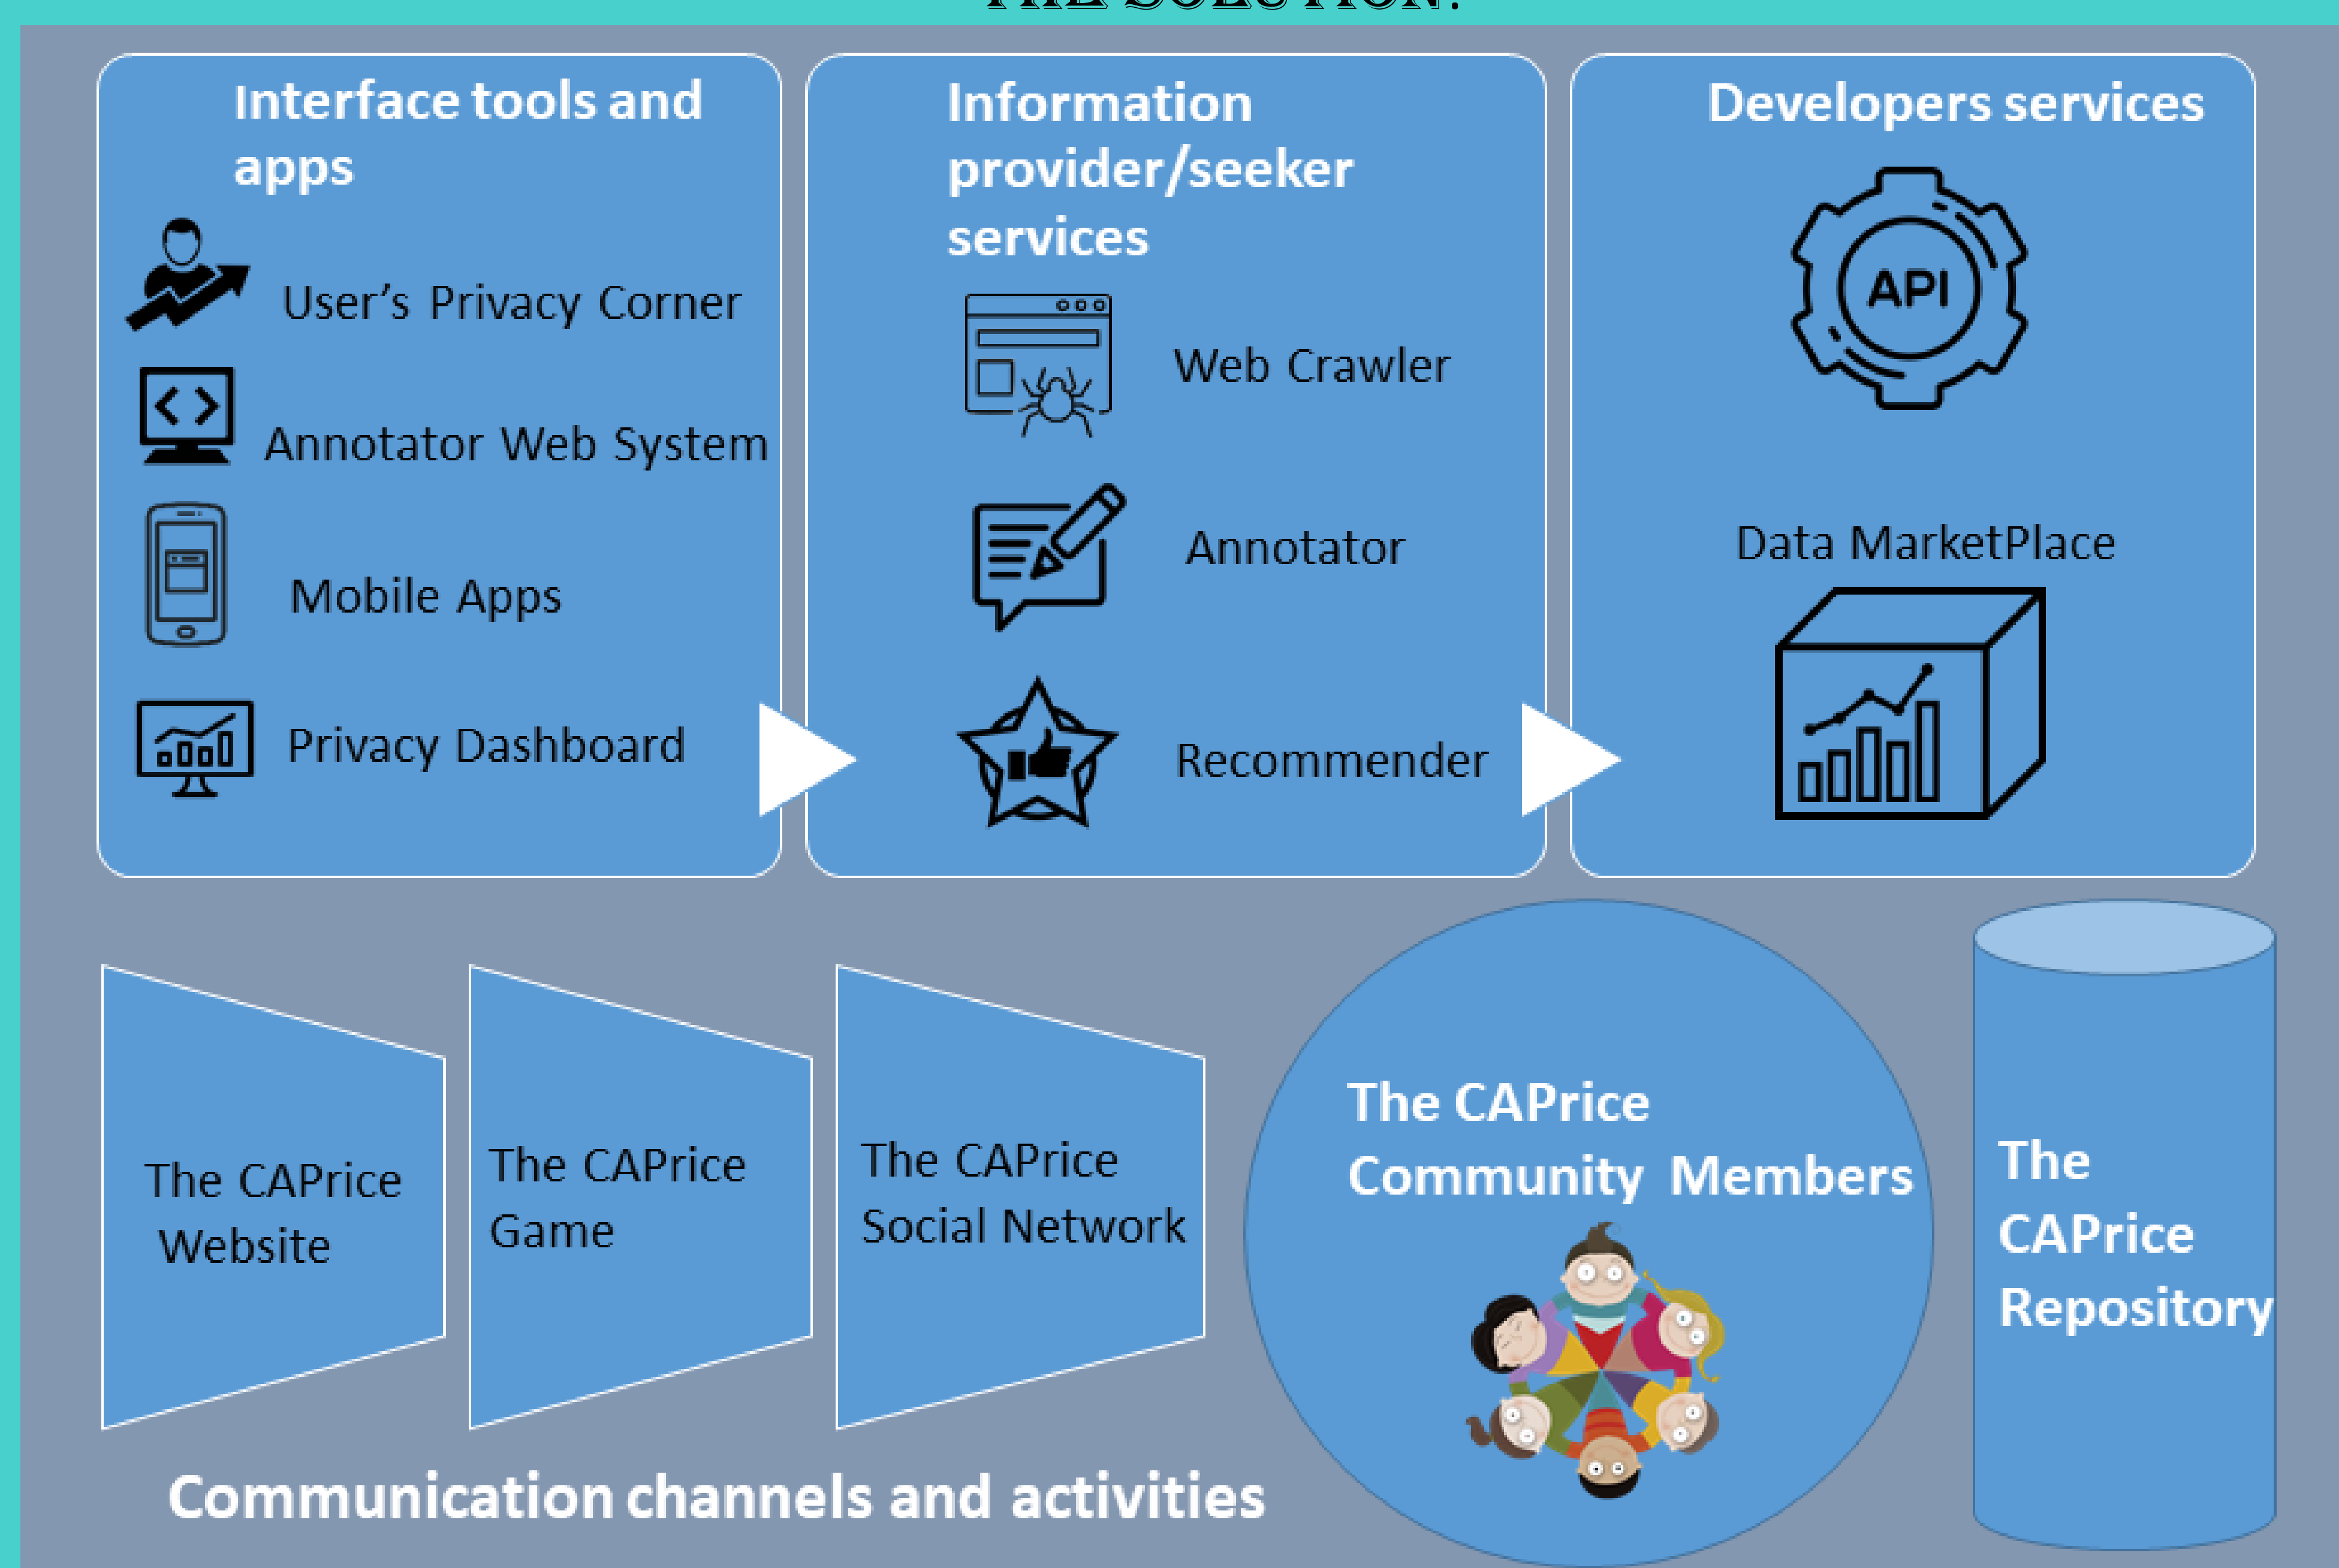

WHAT: CAPrice is a community effort that aims to raise **privacy awareness** to the wide public.

HOW: Through continuous provision of information through various **communication channels** and the participation in **crowdsourced activities**.

VISION: The data collection and use by digital products are driven by the **expectations and needs of the consumers**.

THE SOLUTION:

Contact persons: Giorgos Flouris, Dimitris Plexousakis, Ioannis Chrysakis, Theodore Patkos.
